Mission

Need

More than 100 million people worldwide are in need of a wheelchair but cannot afford one. These individuals cannot be helped by canes or crutches. A wheelchair is their only hope for mobility.

Physical disabilities stem from a variety of causes including can be from war, disease, accidents, and lack of health care. In many areas, including in our own communities, those who feel the weight of these issues go unaided.

“God is not unjust; he will not forget your work and the love you have shown him as you have helped his people and continue to help them.”

— Hebrews 6:10

Impact

A wheelchair improves the quality of life for an entire family. Children can go to school, adults can go to work to provide for their families and the elderly can get out of a bed they may have stayed in for years.

How to Donate to the Global Wheelchair Mission
